

Numbers Spelled Out

BALLOON PARTY

Catherine Austen

Activities

Memory Game

Ages 4 to 6

Print out the Memory Game document. You can colour the images. To make the cards more solid, glue them to sheets of cardboard. Cut out the cards.

Place the illustrated cards face down. Turn a card over, and try to find its twin. If both cards are identical, play again. If not, it's the next player's turn. At the end of the game, the player with the most cards wins.

Harder version: only use the *images* and *words* card series.

Flyers

Ages 7 to 11

Using grocery store websites or flyers, go bargain hunting!

Easy version: with a calculator.

Harder version: without a calculator.

Make a fictional grocery list. Compare prices and calculate the difference between regular and sale prices.

How much money could you help your parents save on the groceries you usually buy?
