

Numbers Spelled Out

MORE ACTIVITIES

Who invented numbers?

Numbers are known to originate in India, while their development and spread originates in the Arab world. As you saw for yourself when you read the different stories, numbers are useful in all walks of life!

Incredible if true!

Fear of numbers is called **arithmophobia** or **numerophobia**

Dentition record: the umbrella slug is a marine species whose mouth is known to host more than 700,000 teeth over a lifetime! How many more teeth is that than yours?

Slowness record: the land slug travels 0.5mm per second. What distance will it travel in a minute?

Let's play

/ What currency is used in France?

- a. Francs
